Aims & Scope:

Soft computing (SC) is a group of techniques and methodologies applied to solve a wide range of problems spread in several areas of science. The aim is to exploit tolerance for imprecision, uncertainty and partial truth to achieve tractability, robustness and low solution cost. Some of the well-established methodologies include Neural Networks, Evolutionary Computing, Fuzzy Logic, Rough Sets, Decision Trees, etc. The focus of this special issue is to bring forward thorough, in-depth, well-focused, and comprehensive applications of the current state-of-the-art SC techniques in variety of hydroenvironmental problems. The ultimate objective is to introduce and discuss capabilities of emerging SC techniques that create a tapestry of modern SC design and application practices in hydrology and environmental science.

Keywords: Soft computing, data mining, artificial intelligence, evolutionary models, earth science, environment, climate

Subtopics:

The subtopics to be covered within this issue are listed below:

Topics of this special issue include (but not limited to) the implementation, development, or review of following techniques in earth science, particularly hydroenvironmental processes.

Artificial Neural Networks and Deep Learning Techniques
Fuzzy Logic and Fuzzy Systems
Support Vector and Extreme Learning Machines
Evolutionary Computation, Genetic programming
Evolutionary Algorithms, Genetic Algorithms
Metaheuristic and Swarm Intelligence
Bio-inspired Optimization techniques
Differential Evolution and Probabilistic Reasoning
Ensemble data-driven and hybrid expert systems
Decision tree and Random Forest
Chaos Theory

Schedule:

- Manuscript submission deadline: March 31, 2021.
- Peer Review Due: April 30, 2021
- Revision Due: May 31, 2021
- Announcement of acceptance by the Guest Editors: June 30, 2021
- Final manuscripts due: July 30, 2021

Contacts:

Guest Editor: Ali Danandeh Mehr
Affiliation: Civil Engineering Department, Antalya Bilim University, Antalya, Turkey.
Email: ali.danandeh@antalya.edu.tr

Electronic Submission:

Electronic submissions are to be made through the editorial system, see
